*"Learn how to make the Magic  
& Power of Natural Selling work  
for you" Michael Oliver*

**"It's no secret that the people who seem to get the most out of their professional and personal life have great people and communication skills."**

It's also no secret you can quickly and easily learn these skills!

Talking with people and **getting a positive response EVERY SINGLE TIME, is easy** - if you Stop Telling, Start Asking and Listen!

While well meaning, most Distributors, Direct Salespeople and Coaches spend their time giving presentations, telling their story, persuading, reading from scripts or telling how wonderful their products and services are.

What they don't spend enough thought and time on, is asking, listening to and responding to WHAT potential clients and partners want... WHY they REALLY want it... and HOW much they want it!

Usual Results – Rejection, Objections and High Attrition or Buyers Remorse!

### **A Powerful 1-Day Interactive, Experiential Workshop Designed For YOU!**

If you, or your team, want to build your business in less time, with less effort without fear, anxiety, rejection or objections... then you'll love this workshop.

See, feel, hear and participate - FIRST HAND - how:
